Quirón Abogados & Asesores is a law firm led by **David Gordillo Álvarez**, Lawyer and CEO. The firm specializes in providing legal and advisory services and sought to enhance efficiency, streamline workflows, and improve communication across the team.

- ✗ **No centralized database** – client's data was scattered across Trello, Excel, and other tools;
- ✗ **Fragmented data**, which made tracking cases really difficult;
- ✗ **Manual, repetitive processes** that consumed time and increased the risk of errors;
- ✗ **Limited internal communication**, affecting coordination and productivity.

We implemented **Bitrix24** as an all-in-one platform for client management, task tracking, and internal communication.

”

"A time saving that would have been unimaginable before acquiring Bitrix24,"
says CEO David Gordillo.

”

- ✓ **Time Efficiency** – Once a full-time role, managing sick leaves now takes just 1 hour per day.
- ✓ **Operational Control** – With everything in one place, tracking tasks and making decisions became faster and more accurate.
- ✓ **Happier Team, Better Service** – Streamlined workflows freed up time for higher-value work, improving both employee satisfaction and client service.

Bitrix24[®] Partners

The results?
Outstanding

Once a full-time role, managing sick leaves now takes just 1 hour per day.

Faster and more accurate task tracking and decision-making.

Freed up time for higher-value legal work, improving both employee satisfaction and client service.

”

"A clear transformation in the firm's management," – David Gordillo.

”

This case shows that **Bitrix24** isn't just software – it's a **game-changer** for businesses ready to scale, streamline, and succeed.
